BLO Maria Dotti

Born in Como on September 30th, 1986

After performing artistic gymnastics for 10 years, she attends dancing and theater courses until she discovers her true inclination within the circus aerial disciplines.

In 2007 she graduates from the circus school Flic in Turin, her speciality is aerial silk, her greatest passion!

During the second year at Flic, she develops, through a painstaking work of research with a strip of fabric, an amazing and original stage performance she named PinkMary's U-shaped silk (double aerial hammock)

A performance that mirrors her true dynamism and sparking essence, ready for the audience to discover.

Following to the circus school, she spends several years teaching circus disciplines while she keeps attending training courses with masters such as: Jean Meningue, Domenico Lannutti,

Firenza Guidi, Roman Fedin, Elodie Donaque, Peter Weyel, Terry Crane, Mister David.

In 2014 she stages her own "s.VAMP.ita", a aerial comic-acrobatic show very much appreciated by the audience.

In 2015 her new street show "PinkAterra", challenges her in a new dimension, the ground.

A show enriched by funny acrobatic performances, contorsionism, objects turning into comical characters, and exhilarating interactions with the audience.

Among the attended Festivals:

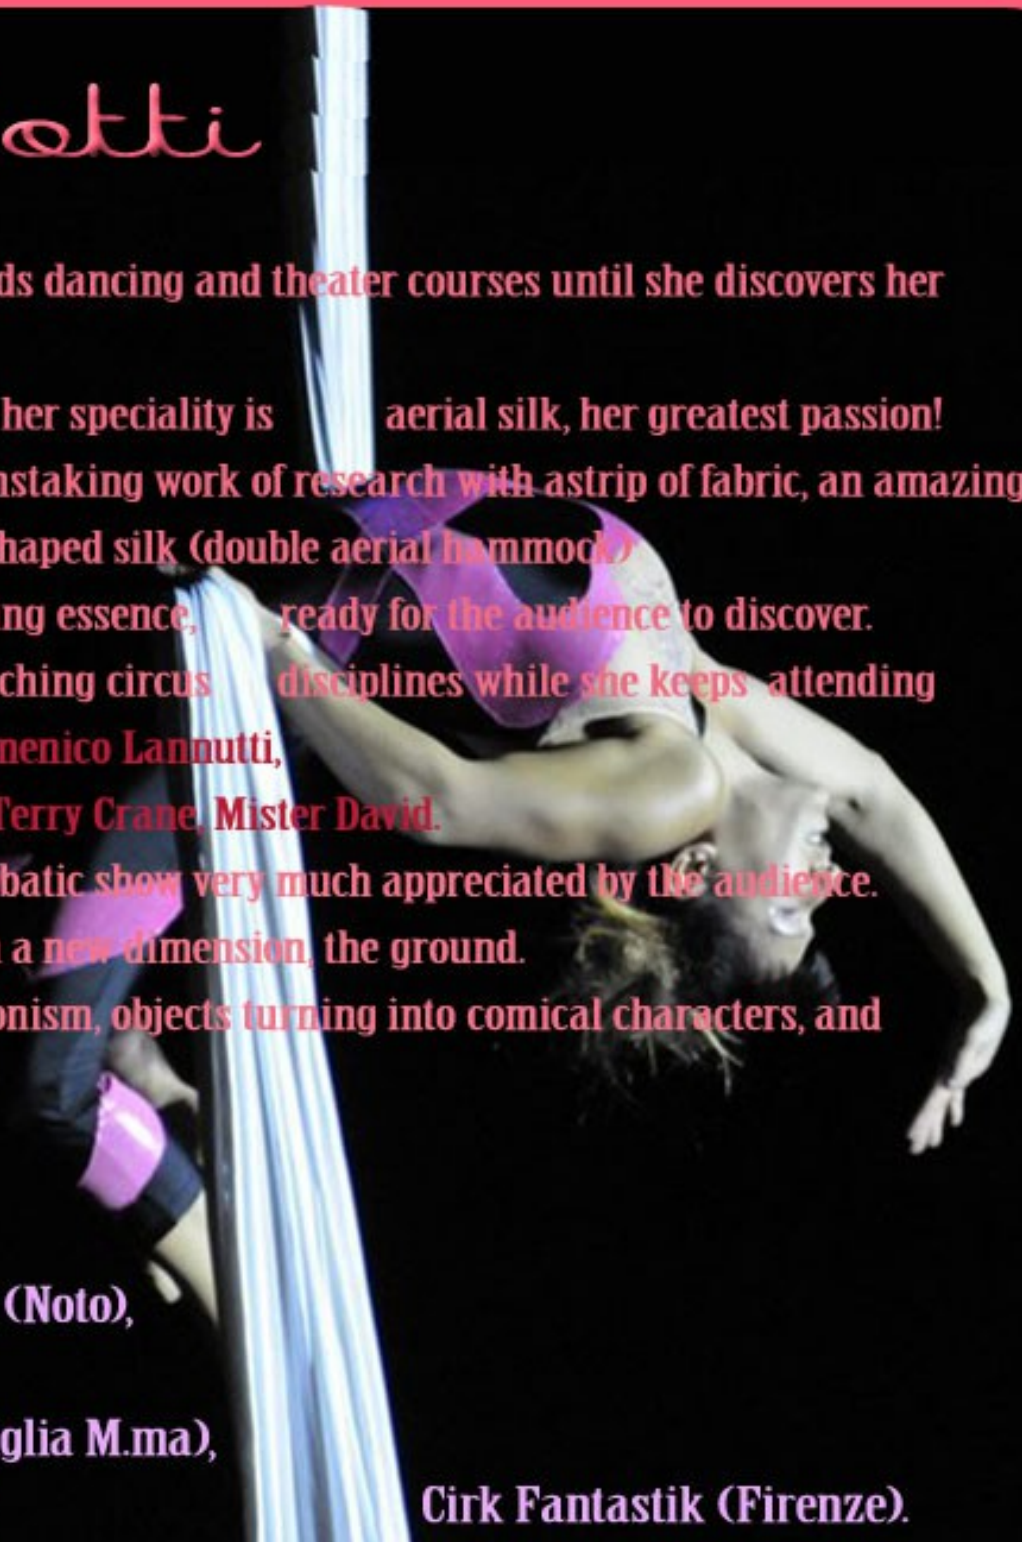

Histrionika (Lucca), Fricandò (Correggio), OltreNoto (Noto),

Mercantia (Certaldo), Maraviglia (Calenzano),
